PROFILE

Full-Stack Web Developer with 4+ years of experience building scalable web applications, business automation systems, and RESTful APIs. Experienced across the full software development lifecycle from architecture, backend development, frontend implementation, deployment, and production maintenance using modern web technologies.

WORK EXPERIENCE

Junior Web Developer, Freelance (October 2020 – Maret 2021)

- Delivered end-to-end full-stack web solutions for diverse clients, handling everything from initial requirement gathering to deployment and hosting.
- Developed modern, responsive user interfaces using cutting-edge frontend technologies, ensuring pixel-perfect execution and high-fidelity layouts.
- Integrated robust backend architectures and third-party APIs, optimizing database performance to support reliable application workflows.
- Maintained strong communication and agile workflows with clients, consistently delivering high-quality projects within strict timelines and project requirements.

Web Developer, Liastakano.com (Maret 2021 – Desember 2022)

- Developed and maintained a high-traffic SMM Panel platform, managing end-to-end full-stack development to ensure production resilience and seamless scalability.
- Integrated multiple third-party provider APIs via RESTful services to automate real-time order processing, status synchronization, and bulk order handling.
- Designed and optimized database architectures to efficiently manage high-frequency transactions, automated balance top-ups, and user logs.
- Optimized application performance and frontend UI/UX, delivering a fast, responsive, and minimalist user experience for thousands of active users.

IT Staff, PT. Mineral Sultra Semesta (July 2022 – April 2023)

- Maintained and supported the company's internal HR software ecosystem, ensuring high system availability and minimal operational disruptions for mining workflows.
- Identified, debugged, and resolved critical software errors and bugs, consistently improving internal system stability and payroll/data accuracy.
- Collaborated closely with internal departments to troubleshoot technical issues, providing rapid deployment of hotfixes and technical support.
- Optimized application reliability by analyzing system logs, preventing recurring technical glitches, and streamlining digital administrative workflows.

PROJECT EXPERIENCE(*Open-Source & Public Repositories)

- [Website Profile](#): Revamped and modernized the personal portfolio website, transitioning from legacy HTML/CSS architectures to a cutting-edge full-stack ecosystem.
- [E-Voting Platform for School](#): Build a secure and responsive digital voting web application designed to automate and streamline the student council election process.
- [Ghibran Motor](#): Developed a comprehensive app management system engineered to streamline inventory tracking, parts procurement, and service workflows.
- [Tawaharu Project](#): Digital invitation platform enabling users to dynamically customize, manage, and deploy personalized event invitations.
- [Operator & Driver HM Report](#): Architected a specialized digital tracking and reporting system designed to streamline heavy equipment Hour Meter (HM) logging and operator timesheet management.

TRAINING AND CERTIFICATE

- Training: Learn basic computer & data processing, **SIAPkerja (formerly BLK)**
- Certification: Learn Claude Code 101, **Anthropic**, Credential ID: [j9cs8ngovue9](#) (June 3, 2026)
- Bootcamp: Learn AI Engineering, **Ruangguru Engineering Academy**, Credential ID: [REAENG12YBOSE](#) (Batch 12, 2026)

EXPERTISE

HARD SKILL

- Front-End: Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3
- Back-End: Node.js, JWT, FastAPI, PHP
- Databases & ORMs: PostgreSQL, MySQL, MongoDB, Prisma, Sequelize, Mongoose
- State & Authentication: Zustand, NextAuth.js
- Testing & Quality Assurance: Jest, Frontend Unit Testing
- Tools & Version Control: Git, GitHub

SOFT SKILL

- Working with Teams and Individuals
- Time Management and Responsibility
- Adaptable and Communicative
- Detailed, Meticulous, and Disciplined
- Creative, Accountability, and Patience.
